Acknowledgement is made of the response and amendments filed in paper no. 9, supplemental amendment in paper no. 10 and supplemental IDS in paper no. 11. Amendments are entered. Claims 1-6, 10, 12 and 14-18 are pending. No claim is allowed at this time.

Declaration filed in paper no. 10 has been considered. The data clearly shows that branched alkyl group substituted at N of pyrazole ring is unexpectedly better than the compounds containing straight chain alkyl groups. However, the rejections are maintained because declaration is not a 132 declaration and the Arroeney on record has not signed the response.

Presently claimed invention is drawn to 3-(heterocyclyl)-benzoylpyrazoles which differ from the prior art of record in claiming a branched alkyl group substituted at Nitrogen of pyrazole.

Applicant is requested to file a 1.132 declaration and explain the data as they did in this declaration.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any
